-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### DETAILED ACTION

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 30, 33-37, 39, 40 and 42 are rejected under 35 U.S.C. 102(b) as being anticipated by Voegeli (279).

It is first noted that the cables are not regarded as being positively claimed. Voegeli teaches a pedestal closure assembly including a dome 12 slidably mounted onto and removable from a base 11, 21, a mounting plate 31, 32 which is capable of supporting cables 33, 34, a lock 23 mounted on the lower portion of the dome 12, a portion 29 of the lock positioned on an interior of the dome as seen in fig. 2, at least a portion of the lock at 29 defined by the nuts having an outer surface which is regarded as free from sharp edges to be capable of avoiding snagging of cables. The faces (or side walls) of the nuts define slanted surfaces relative to one another, which include at least one upper slanted surface and at least one lower slanted surfaces. The edges where these slanted surfaces meet are regarded as not being sharp. It is also noted that the term "sharp" is a relative term, and a conventional nut having outer surfaces which meet at edges are not regarded as being sharp. It is also noted that cables are not being positively claimed. Further, the nuts 29 of the lock as seen in figure 2 are clearly intended to be spaced far enough away from any cables which are capable of occupying the dome, to avoid the potential snagging of cables. As seen in fig. 3, the

lock also includes at least one rounded corner shown as the circular portion of the lock, defined by the threaded bolt which receives the nuts 29. The lock 29 is regarded as being in close proximity to the mounting plate 31, 32.

Claims 1-3, 6, 14-16, 19 and 25-29 are allowed.

Applicant's arguments with respect to claims 30, 33-37, 39, 40 and 42 have been considered but are moot in view of the new ground(s) of rejection.

Applicant's amendment (claiming "at least a portion of the lock" having an outer surface free of sharp edges necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
